* Examples of trade names only. The MRLs also apply to products with a different trade name with the same active ingredient.

NT = No tolerance listed at this time. Default tolerances in effect: Japan = 0.01; Canada = 0.1; EU/UK = 0.01 ppm, Korea and Taiwan = 0.0ppm

Ex = Pesticides that are exempt from tolerance in USA (no MRL established or needed)

? = No USA tolerance listed in US-EPA database (40 CFR 180)

-- = Pesticides exempt from tolerance in the USA are not listed as exempt in databases of other countries.

■ = Tolerance is lower than USA tolerance (some are small differences, some are large)
